# IS YOUR WORKPLACE READY FOR A CNSC INSPECTION?

# 2017 RADIATION SAFETY OFFICER (RSO) CERTIFICATE COURSE

Radiation Safety Institute of Canada

Institut de radioprotection du Canada

Get RSO Certified It's the law! Join us in 2017

#### **EXPERIENCE THE RSIC DIFFERENCE**

- Comprehensive curriculum: open and sealed sources
- All applications from medical to industrial
- Fulfills the mandatory CNSC requirements for Radiation Safety Training
- Includes Transportation of Dangerous Goods (TDG)
   Class 7 Certificate
- Engaging and interactive learning methods
- Led by experienced Registered Radiation Safety professionals

## **Radiation Safety Officer (RSO-1)**

#### **COURSE DETAILS**

This 5-day premier Certificate Program is designed to prepare participants to successfully assume the Radiation Safety Officer role at a workplace that uses radioactive materials or radiation devices under the Canadian Nuclear Safety Commission Regulations. The Program will help participants understand the fundamentals of radiation safety and teach them to confidently apply the scientific, regulatory and practical principles in their everyday work.

#### TARGET AUDIENCE

Those who are or will be responsible for radiation protection and safe operation of radioactive materials, open and sealed sources, nuclear gauges, radiography cameras and other radiation devices in a workplace.

#### LEARNER OUTCOMES

- Knowledge of radiation safety theory and practices
- Ability to develop and implement a quality Radiation Protection Program
- Understanding of the Nuclear Safety and Control Act and Regulations
- $\circ$  Understanding of the CNSC Licensing requirements and process
- $\circ$  Capacity to provide employee radiation safety awareness training

#### **COURSE PREREQUISITES**

There are no prerequisites to this course

### **Radiation Safety Officer Refresher (RSO-2)**

#### **COURSE DETAILS**

This two-day course builds on your existing knowledge of radiation safety. Active exchange with our educators in advance of the course ensures course content tailored to your specific needs. It is designed to reinforce your understanding of regulations and the best practices. It is the regulator's expectations that active RSOs will update their training regularly.

#### TARGET AUDIENCE

Active Radiation Safety Officers looking to refresh their skills and knowledge base (suggested frequency is every 3 years).

#### LEARNER OUTCOMES

- Awareness of revisions and changes to CNSC regulations
- $\circ$  Ability to take new approaches to practical radiation safety challenges
- $\circ$  Reinforced capacity to maintain a Radiation Safety Program
- $\circ$  Understanding of the CNSC licence renewal application process
- $\circ$  Benefit of networking with your peers
